READ THE WHOLE CARD FIRST!

11/27/98

Harold, regardless of the friction and division in the research community, the true historians and archivists continue one. Even in nineteen ninety eight as you have seen true research is taking place. The general consensus is that this thing is growing and the public is more interested than ever. Harold everyone I talked to, and I mean the first generation researchers to the fourth generation students all aknowledge that you were the ground breaker. All of us regardless of current school regard your work as the consumate, the pinnacle and the bedrock of our work today. Why Harold even that poor misguided R.B. Cutler just cant say enough good about you! Youll see in my shoot video! I feel as if I too am respected by my peers. And I respect others bodies of work. When egos clash or someone gets panned for writing an erroneous inaccurate piece or "scientific analysis". I no longer bother mypelf with trying to make sense of it. However I do not throw the baby out with the bathwater. As long as they are humble enough to eventualy stand corrected, then I will continue to respect them not necessarily their research work. Christ Harold, I am on chemotherapy. it scared the hell out of me at forty one to face the possibility of death from illness.

ON BACK

maybe this is going to change me for the better. I feel less centered around myself - No I am not Harold Weisberg who gave of himself so selflessly. Who, cannot help but admire and envy a man who put everything on the line? As I said I am but a shadow of you, however, I am absolutely driven to educate those who question the "BIG LIE" that we have lived with for thirty-five years. I, like you, have spent thousands of dollars and hours in pursuit of knowledge - No, I'm not saying that we are equals, I most likely will never attain "hero" status. However I'm not attempting to. I just want those history books purged of this gross prevarication. Harold this is in the realm of possibility, this is not foolish chatter or pollyannish optimism! I've been shut down in debate before and I've always fought back! Each time I speak to a group or lead a tour in Dallas I come away stronger and more firm in my ~~be~~ belief that those who came before me and handed me the fruits of their labor can rest assured I will give 100% in helping dismantle this lie! I have <u>never</u> <u>taken</u> a dollar for any of this!

Please allow me some time to arrange to help on your house I also need a bone operation and this has me a little perplexed

as to financial ends. I would be useless for a period of three months I need to make arrangements at some point. I just found this out two weeks ago. I am hoping to give you a day here and there with one of my crew and I.

Harold I spoke with Judge Brown in Dallas. He as you know is involved with the M.L.K. case. As you told me in October you had some pertinent paper work you wanted to get to someone concerning this case. He gave me his card and said if I talked to you that he'd be very interested in anything you had to offer. Please forgive me if I'm incorrect but I'm sure you had asked me if I knew any of the people interested in resolution of this. That you had something important or germaine to offer. I will gladly help prepare what ever it is.

I am going to pray for you daily and of course for your lovely wife. Remember that so many all over the world love you. I did an hour and forty five minute interview with LE FIGARO magazine out of France. The editor / New York Bureau Chief Jean Louis is in awe of your efforts as I am. As Gary Mack said to me Harold is my hero!

God Bless you every breath you take!

Sincerely Thomas Weaver.

Dear Harold,

I hope you are doing reasonably well, god willing. I just got back from the "Big D" we had a frenetically paced visit as usual the circus and the Perry Masons were in full swing!

GET WELL SOON !

However I was able to get the last of the camera shots I need for my purposes. Some absolutely clarifying information was made available to me. Now I need to work directly with you and the Basement files - I know that you are limited w/ all going on, but I feel as if I've found the right track and need to get to work. There is something I need to confide to you, when we see each other again. Also Gary Mack says hello as with Best wishes

from many in Dallas – I video taped people sending you their best wishes, Everyone from Hal Verb to witnesses to the 22 Nov 63 event, to Ruby's dancers to old friends of yours say they love

DOWN THE

HATCH

you and to get better! Harold even Madeliene Brown who you think is wacky, says hello. Our favorite big mouth Mark Lane misted you well as with Cyril Wecht and Robert Groden – he sincerely apologizes to you! I also had a prayer said for you by those Perry Masons, at Dancer! John "Paranoid" Judge also says you are the best! Read the letter
